Lab 6

VE482 — Introduction to Operating Systems Lab 6

1. A real life software
2. Designing a plugin architecture

1. A real life software

Based on Zathura plugin documentation and Zathura-cb:

- Write the skeleton of a simple Zathura plugin allowing to open a text file.
- Complete the plugin such that Zathura can open and display text files.

2. Designing a plugin architecture
